

Arthur Machado | QA Test Analyst

Manual and automated testing

Email: arthurmachadoqa@gmail.com

Phone: +55 (54) 9 9933-5048

Bachelor's degree in Computer Science and a Software Quality Analyst with **over 5 years of experience** in manual and automated testing. Skilled in **Selenium, Cypress, Playwright, and Maestro**, with expertise in functional, regression, integration, unit, load, stress, and smoke testing. Experienced in Agile methodologies (Scrum/Kanban) and **DevOps** (CI/CD), integrating automated tests into continuous delivery pipelines. Proficient in creating **BDD** (Gherkin) test scenarios and applying **Shift-Left** testing strategies to ensure quality from the early stages of development. Strong ability to work in multicultural teams and **international projects**, with technical communication in English.

Professional Experience

QA Analyst – Compass (10/2020 – 10/2025)

Led end-to-end testing processes, with a strong focus on Shift-Left practices to identify and mitigate defects early in the development lifecycle.

Developed automated test scripts using Selenium for web applications.

Designed and executed BDD (Gherkin) test scenarios, integrating quality assurance into the Agile development cycle.

Conducted API (REST) testing using Postman and database validations with DBeaver.

Collaborated with international teams, ensuring clear communication and efficient deliveries in a multicultural environment.

Integrated automated tests into CI/CD pipelines using Git, Jenkins, and Azure DevOps.

Main Projects at Compass

BeautyCounter USA (E-commerce – USA): Worked with an American development and management team, conducting all meetings and informal discussions in English. Successfully delivered multiple features alongside QA consultants and developers. Played a significant role in delivering the *Band of Beauty (BoB)* product.

Natura (E-commerce – Brazil & Mexico): Contributed to the delivery of the *New Tax Model* using Oracle BCC and Dynamo, and participated in the technology migration of mobile applications. Acted as the sole QA in the first team to implement Salesforce-based back-end solutions, ensuring quality for *The Body Shop* and *Natura Mexico* products.

Ailos (Credit Union – Brazil): Focused on back-end testing, validating REST APIs with Postman and performing critical database tests using DBeaver. Ensured compliance in financial processes such as credit blocking and unblocking.

Renner Camicado (E-commerce – Brazil): Primarily worked on front-end testing, ensuring optimal user experience for components like full-width banners, “buy together” carousels, and product showcases. Led the automation of test cases using Selenium.

Renner (E-commerce - Brazil): Project mainly focused on event triggers and flow analysis in platforms such as Firebase and Google Tag Manager (GTM), ensuring the correct events are in place on the platforms in compliance with the application's front-end, using components such as Oracle BCC, Dynamo, and Postman.

Quality Analyst – MJV Innovation (10/2025 – Present)

Working across the entire testing lifecycle, with strong involvement in Shift-Left processes, ensuring early identification and mitigation of defects from the initial stages of development.

Test automation using Appium for mobile applications.

Integration of automated tests into CI/CD pipelines using Azure DevOps.

Mobile testing on an Insurance app with Open Insurance (OPIN) communication.

Technical Skills

Test Automation:

Selenium (Web), Cypress (Web & API), Playwright (Web), Maestro (Mobile).

API & Database Testing:

Postman, REST API, SQL, DynamoDB, DBeaver.

Methodologies & Test Management:

Agile (Scrum/Kanban), BDD (Gherkin), CI/CD (Jenkins, GitHub Actions, Azure DevOps), Unit Testing, Regression Testing, Performance Testing.

Tools & Frameworks:

JIRA, Kanbanize, Zephyr, Testmo, JUnit, TestNG, K6, Octane.

Programming & Version Control:

Java, JavaScript, Python, Git.

Languages

Portuguese: Native.

English: Intermediate (professional and technical communication).

Spanish: Basic.

Education

Bachelor's Degree in Computer Science – Atitus Educação (2020 – 2025)
